## SAMPLE PAPERS

Subject: English Class :XI

Time: 30 Min

MM: 25

Instructions: Read the questions carefully and answer them. All the questions are compulsory

I. Read the following passage carefully.

5

- 1) Amazing cars, huge houses, lots of servants and expensive furniture show that we love extravagance. But we all would like to see a green and clean world, where breathing is a healthy and pleasing exercise to do, rather than a necessity you would avoid if you could. So how do we achieve that elusive balance between extravagance and environmental-friendly living? By being aware, of course.
- 2) You want to buy that incredibly expensive car, buy it. But also include walking in your routine. Walk to your grocery store. In fact, why don't you chart a mental map? Walk to all those places that are 10-15 minute walk from your home. When you go shopping, try parking your car five minutes way from the mall and walk. It saves that much petrol, and stops that much pollution.
- 3) Can't be bothered to turn off all lights and fans not in use? Turn one light off? By doing that you save that much energy.
- 4) Too cool to carry your own cloth bag to the grocery store? Ok, don't. But you can at least make sure that they put everything in one or two bags, rather than using too many bags. It saves that much of plastic.
- 5) Oh yes, go ahead and spend all the money you have on all the luxuries you can buy. Just make sure that you save whatever you can. That is all you need to do. So stop feeling guilty about all the harm that you are causing to the society, and get involved in some planet-saving activity. The smallest gesture makes the difference. And the word is 'awareness'.

*Snowflakes*

And did you know

That every flake of snow

That forms so high

In the grey winter sky

(5) And falls so far

Is a bright six-pointed star?

Each crystal grows

A flower as perfect as a rose.

Lace could never make

(10) The patterns of a flake.

No brooch

Of figured silver could approach

Its delicate craftsmanship. And think:

Each pattern is distinct.

(15) Of all the snowflakes floating there-

The million million in the air-

None is the same. Each star

Is newly forged, as faces are,

Shaped to its own design

(20) Like yours and mine.

And yet....each one

Melts when its flight is done;

Holds frozen loveliness

A moment, even less;

(25) Suspends itself in time-

And passes like a rhyme.

*Clive Sansom*
