Letter of Appreciation

Dear Tenzin Noryang,
 Class 7, Birla Balika Vidyapeeth, Pilani

I am incredibly proud to personally congratulate you on successfully clearing the First Stage of the **LogiQids Mental Aptitude Olympiad 2025-26**. To be honest, to say that you merely 'cleared' this stage would be an understatement - you have truly excelled!

Congratulations on a **STANDOUT** achievement!

LogiQids has always been a challenging assessment. It isn't a test of what you've memorized; it is a test of **how you think. And clearly, you think differently.**

In such a tough examination, the true measure of your performance is your **percentile, i.e. 99.91** (rather than just the score), because it reflects that **you performed better than 99.91%** students, which is an outstanding achievement. **This places you in the absolute top tier of thinkers your age.**

Tenzin Noryang's Performance Overview

Score: 178/188 (94.68%)	School Rank: 1	Zonal Rank: 5	Status: Qualified
-------------------------	----------------	---------------	-------------------

Do check out the detailed analysis of your performance on the [LogiQids App / Website](#).

Out of **2,34,484 students globally**, you have placed yourself in the **top 0.09%**. In a competition focused on logical reasoning and analytical thinking, this is a strong and well-earned result.

I have experienced first-hand how 'Logic' can be a very powerful skill. I went from almost failing Math in Grade 7 to clearing IIT and IIM. The difference wasn't rote learning - it was 'Logic'. It completely changed how I approached Math and learning, and that foundation made all the difference over the years. **Looking at your performance, I see that same spark in you.**

In a future driven by AI, your ability to reason and analyze will be your superpower. You have a **rare gift**, and I would love to see you push it further. Keep exposing yourself to such thinking questions regularly and continue to build on your exceptional logic.

The Final Stage is designed exactly for minds like yours - it's tougher, deeper, and far more stimulating. It's a playground for the best of thinkers to test their mettle. Exceptional performers from Grade 4th to Grade 10th will place themselves among the top 0.2% globally, with the opportunity to be considered for the LQ Ideathon at IIT Bombay Techfest.

Congratulations once again on this achievement. You've already proven you are exceptional. I can't wait to see how you do in the next stage.

Focus on Maths concepts with consistent practice: Teachers

TIMES NEWS NETWORK

Jaipur: In the last few days before the Class 10 Mathematics board exam, subject experts advised that students should work to build an understanding of the concepts through consistent practice and improve their ability to solve problems through revision.

Savitri Dhayal, a mathematics teacher at Birla Balika Vidyapeeth in Pilani, said

**BOARD
TIPS**

'Self-discipline and self-assurance'

Jaipur: Sukriti Rawat, a Class 10 student at Birla Balika Vidyapeeth in Pilani, said her preparation for the maths exam involved self-discipline, practice, and increasing self-assurance. "I discovered how to maximise the school schedule. I revised formulae, theorems, and important concepts during morning preparation, and questions during evening prep. This equilibrium between practice and review was crucial," said Rawat. She said she took regular mock tests and quizzes, which helped her familiarise herself with the format of the paper. "Answering MCQs was easier when I understood the knack of carefully reading the question and not rushing through the answers," said Rawat. TNN

practice of rewriting important formulae, properties, and rules from classes 9 and 10 makes their application easy.

"Students should pay particular attention to the methods, steps, and approaches

to each type of question that could be asked. This greatly increases their ability to complete questions that require competency because of the nature of the questions asked," said Dhayal.

An article on "Focus on Math concepts with consistent practice" was published in the Times of India newspaper. Sukriti Rawat, a student of Class 10 presented her thought under the mentorship of Mrs. Savitri Dhayal, TGT Maths.
